

# Completing my Work

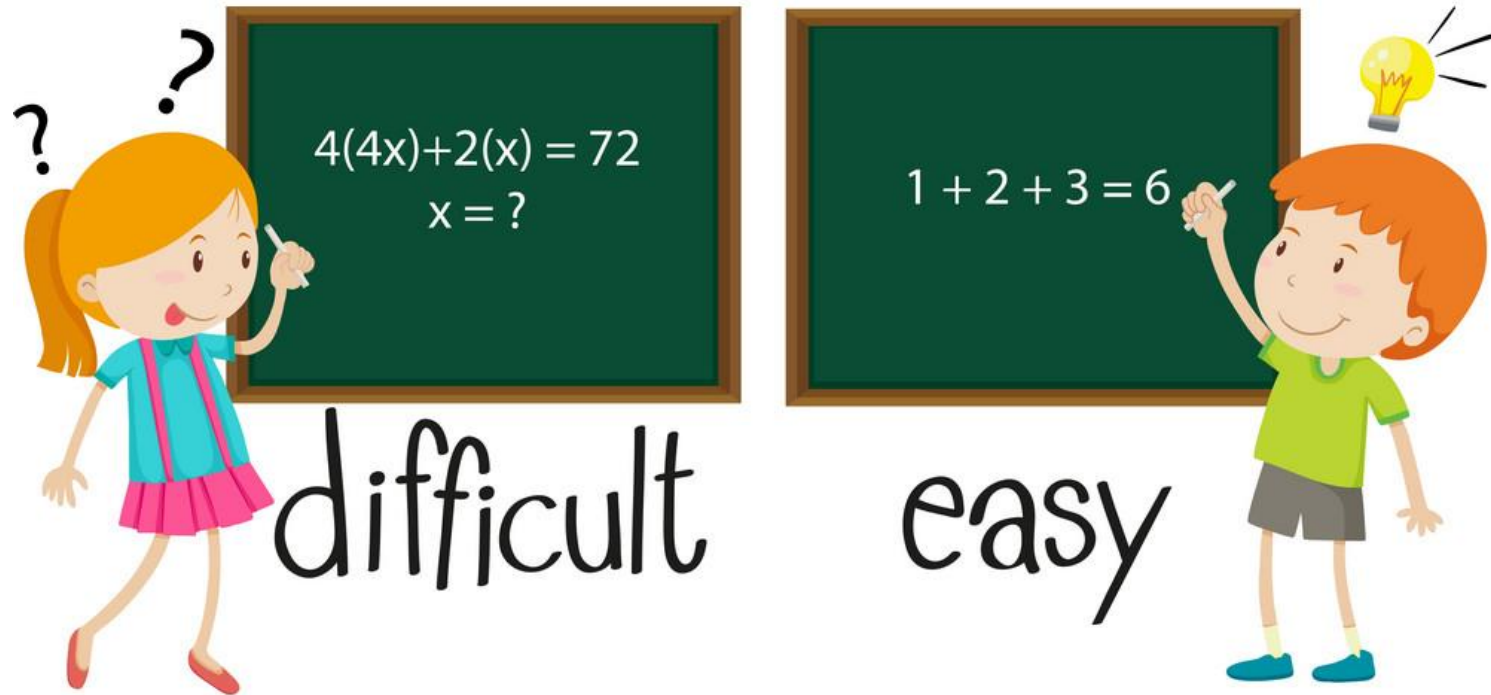

It's time to  
do your  
work!

My teacher will give me time to complete my work.

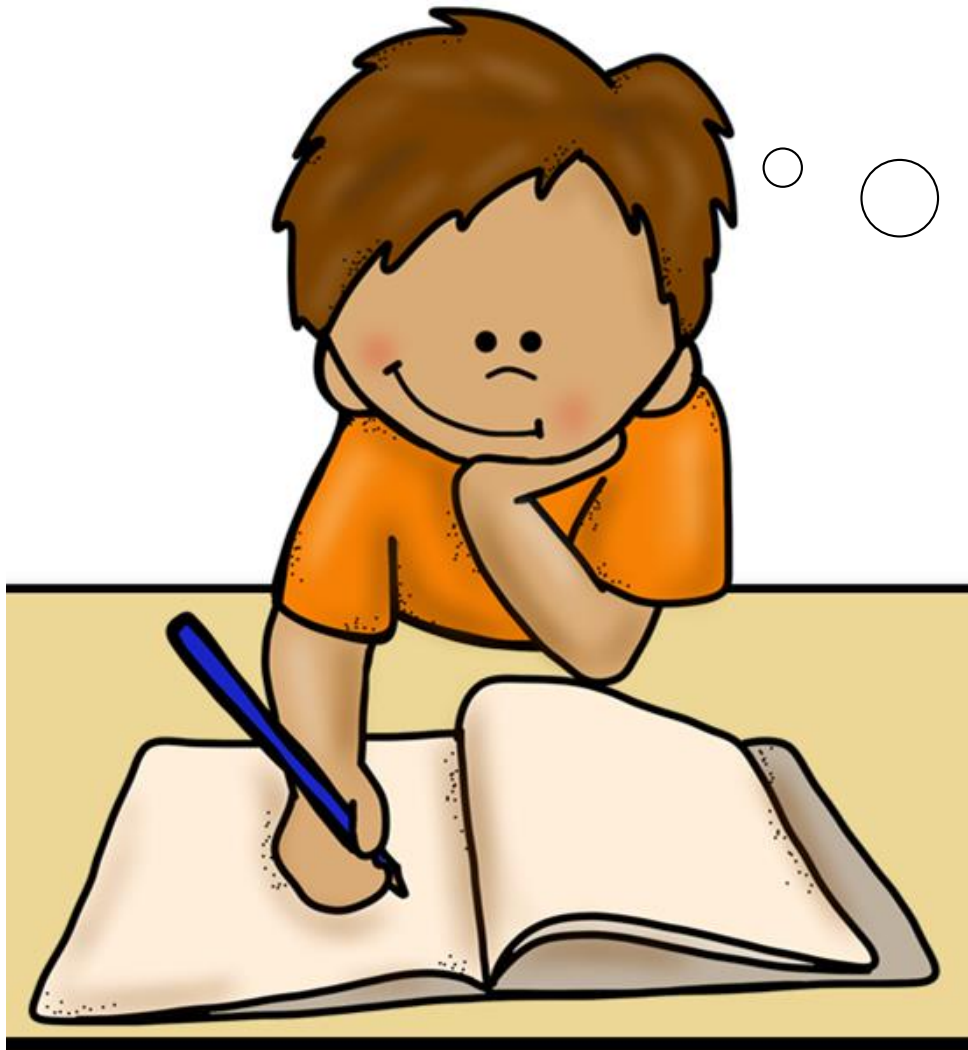

If I need help, I will raise my hand and ask the teacher for help. Sometimes the teacher will help me, other times I need to complete my work on my own.

Sometimes the work will be easy, and other times it will be hard.

When I am frustrated and my teacher can't help me, I will use my calming tools.

I'm not done  
yet, I will  
continue my  
work!

When my friends finish their work before me, I will  
continue to do my work.

When my teacher says times up and I'm not finished, I can ask to complete my work during play time.

I will stay focused and try my best to complete my work on time.

My teachers are proud of me and my friends when we complete our work on time.
