

Safety with Strangers

I like making new friends! Making friends feel good!

But, some people shouldn't be my friend.

If I don't know the person, I shouldn't talk to them. It is okay if they are my friend.

Some adult strangers may want to hurt me, I don't like being hurt.

I like being safe! To be safe, I should not talk to strangers. If they talk to me I should get another adult right away!

A parent or teacher can help me if a stranger tries to talk to me.

If I get a parent or teacher to help me, I will be safe and then I will be happy! My teacher and parents will be happy too!
