

Touching Other People

Sometimes it is okay to touch people. When I touch my friends I will try to touch them only on the arm or shoulder.

Sometimes I like to give hugs and kisses. It is okay to hug and kiss my family.

I can hug and kiss my family members.

When I am with my friends I can give them a handshake,
give a high five, or bump fists.

Can I
have a
hug?

Sometimes it is okay to hug my friends but sometimes my friends don't want a hug. So I need to ask, "Can I have a hug?"

If my friend says “yes” I can hug him or her.

If my friend says “no” I need to listen and not touch them.
I will save my hugs and kisses for my family!

I will try to only touch my friends on the arm or shoulder.

When I give my friends handshakes, high fives, or fist bumps my friends will be happy!
