- Consult with internal stakeholders to consider clinical needs and implications of business activities
- Manage business plan development for Fee-for-Service programs and new initiatives
- Manage the implementation and execution of approved business development projects
- Use quantitative and qualitative data to monitor and evaluate business performance
- Identify adaptations and changes required to make business initiatives sustainable and scalable
- Be an organizational resource, providing input on ways to improve internal systems and ways of working

Qualifications:

- Bachelors degree (or higher) in business administration, entrepreneurship, or a related field
- Evidence of ability to challenge status-quo and generate creative solutions that create shared value
- Evidence of ability to manage complex projects that involve financial projects, business processes and human resource considerations

- Excellent communicator with a solid understanding and appreciation of business principles, impact investment, and social entrepreneurship
- Strong networks and representational skills
- Demonstrated experience managing and improving successful proposal development processes, including selection and management of projects
- Strong management, team building, relational, interpersonal and communication abilities and skills
- Results-oriented mindset and a willingness to be hands-on with a high attention to detail
- Strong organizational skills with the proven ability to manage multiple projects simultaneously
- Strong cross-cultural skills with a proven ability to contribute to a positive team atmosphere and collaborative organizational culture
- Demonstrated ability to use management and productivity software, including Microsoft Excel
